

7 Section 1
Microeconomics I - Introductory Concepts
and Understanding Markets

- 8** Lesson 1
What is the Economy?
- 12** Lesson 2
The Central Economic Problem
- 14** Lesson 3
Different Economic Systems
- 17** Lesson 4
The Evolution of Economic Thought
- 22** Lesson 5
Economics as a Social Science
- 24** Lesson 6
Opportunity Cost and the
Production Possibility Curve Model
- 27** Lesson 7
The Benefits of Knowing Economics
- 29** Lesson 8
Big Ideas in Economics
- 34** Lesson 9
The Magic of Markets
- 38** Lesson 10
Modelling the Consumer: Demand
- 41** Lesson 11
Understanding Demand
- 43** Lesson 12
Modelling the Producer: Supply
- 46** Lesson 13
Understanding Supply
- 48** Lesson 14
Bringing Consumers and
Producers Together - Market Equilibrium
- 50** Lesson 15
Market Equilibrium with a Quantitative Twist
- 54** Lesson 16
Elasticity and the Price Elasticity of Demand
- 57** Lesson 17
Price Elasticity of Demand -
Understanding through Diagrams
- 60** Lesson 18
Other Elasticities of Demand

- 64** Lesson 19
Price Elasticity of Supply
- 68** Lesson 20
Government Intervention -
Indirect Taxes and Subsidies
- 72** Lesson 21
Price Controls

78 Section 2
Microeconomics II - Market Failure,
the Theory of the Firm and Factor Markets

- 80** Lesson 22
Market Failure
- 82** Lesson 23
Externalities as a Source of Market Failure
- 84** Lesson 24
Policy Responses to Externality Problems
- 86** Lesson 25
The Problem of Public Goods
- 88** Lesson 26
Other Sources of Market Failure:
Monopoly Power and Asymmetric Information
- 91** Lesson 27
The Tragedy of the Commons
(and other environmental applications of m.f.)
- 98** Lesson 28
More about Producers - The Goals of Firms
and the Calculation of Profit
- 101** Lesson 29
Further Relationships between Revenues,
Costs and Profits
- 104** Lesson 30
Market Structure 1 - Perfect Competition
- 108** Lesson 31
Market Structure 2 - Monopoly

- 112** Lesson 32
Price Discrimination
- 116** Lesson 33
Market Structure 3 - Monopolistic Competition
- 118** Lesson 34
Market Structure 4 - Oligopoly
- 124** Lesson 35
Corporate Concentration in Canada
- 126** Lesson 36
Different Forms of Productive Enterprise
- 128** Lesson 37
The Labour Market
- 132** Lesson 38
Labour in Canada
- 136** Lesson 39
Capital Markets

143 Section 3
Macroeconomics

- 144** Lesson 40
The Problem of the Great Depression and
the Birth of Macroeconomics
- 148** Lesson 41
Measuring the Size of the Macro-economy
- 151** Lesson 42
The Business Cycle
- 154** Lesson 43
Modelling the Macro-economy -
Aggregate Demand and Aggregate Supply
- 158** Lesson 44
More about Keynes and Keynesian Demand
Management
- 161** Lesson 45
Supply-side Policy Solutions
- 166** Lesson 46
The Problem of Unemployment

- 169** Lesson 47
Policy Responses to Unemployment
- 171** Lesson 48
Money and Banking
- 173** Lesson 49
The Problem of Unstable Prices
(Inflation and Deflation)
- 178** Lesson 50
Measuring Inflation and Associated Problems
- 180** Lesson 51
The Phillips Curve and Goodhart's Law
- 186** Lesson 52
The Goal of Equity (Fairness)
- 190** Lesson 53
The Goal of Growth
- 192** Lesson 54
The Goal of Efficiency
and International Competitiveness
- 194** Lesson 55
Fiscal Policy (a closer look)
- 198** Lesson 56
Monetary Policy (a closer look)
- 200** Lesson 57
The Policy Balance (a historical view)

209 Section 4
International Economics and Economic
Development

- 210** Lesson 58
Canada and the Global Economy
- 212** Lesson 59
International Trade Theory -
Absolute and Comparative Advantage
- 215** Lesson 60
Arguments for Free Trade and Protectionism
- 218** Lesson 61
Methods of Protectionism I - Tariffs

221	Lesson 62 Methods of Protectionism 2 - Subsidies and Quotas	268	Lesson 76 Introduction to Economic Growth and Development
224	Lesson 63 Arguments against Free Trade and Protectionism	273	Lesson 77 The Development Cycle
228	Lesson 64 The Balance of Payments	276	Lesson 78 Different Theories of Development
230	Lesson 65 Exchange Rates 1 - Freely Floating Exchange Rates	278	Lesson 79 The Role of Domestic Factors
233	Lesson 66 Determining and Using Exchange Rates	280	Lesson 80 Trade as a Development Strategy
235	Lesson 67 Exchange Rates 2 - Fixed and Managed Exchange Rates	282	Lesson 81 The Role of Foreign Direct Investment
240	Lesson 68 Current Account Deficits and Surpluses	284	Lesson 82 The Aid Debate
242	Lesson 69 Global Imbalances and the Global Financial Crisis	287	Lesson 83 The Problem of Indebtedness
244	Lesson 70 Economic Integration 1 - Globalization and the World Trade Organization	289	Lesson 84 The Balance between Markets and Government in promoting Economic Dev't
246	Lesson 71 Economic Integration 2 - Regionalization and Trading Blocs	292	Lesson 85 The Challenge of Economic Development for Aboriginal Canadians
250	Lesson 72 The Global Financial Crisis of 2008-2011 - Part One - Essentials and Prologue	295	Index
253	Lesson 73 The Global Financial Crisis of 2008-2011 - Part Two - The Years of Confidence		
257	Lesson 74 The Global Financial Crisis of 2008-2011 - Part Three - Enter Fraud		
262	Lesson 75 The Global Financial Crisis of 2008-2011 - Part Four - Going Forward		

Microeconomics I

Introductory Concepts and Understanding Markets

What is economics all about?

What are markets and why do we use them?

How and why do governments intervene in markets?
